WORK EXPERIENCE ENTERPRISE PROJECT

The Ballymun Job Centre with the support of JP Morgan Chase have developed an IT Work Experience Enterprise (WEE) Project to provide individuals with the opportunity to gain hands-on experience in a simulated IT work environment.

Project aim for participants:

Project provides:

- Reduce the gap between IT training and entering employment.
 - Ensure individuals are fully prepared for an IT work environment.
 - Ensure individuals have the ability to demonstrate their soft and technical skills.
 - Provide a safe space for individuals to make and own their mistakes.
 - Foster the ability to share their knowledge and learn from co-workers.
 - Provide a space for individuals to grow
- A simulated digital work environment.
 - Jobseekers with REAL digital projects, co-designed by employers to complete.
 - Individuals with the time, tools, and location to develop their work related soft skills.
 - Individuals the opportunity to work as a team to reach one common goal.
 - The opportunity to communicate with employers and technical mentors.
 - The location that encourages networking with employers in the IT industry.

With the help and support of our amazing sponsors:

JPMORGAN CHASE & CO.

Employer Contribution

Supporting the IT experts of tomorrow, by:

- Providing digital projects for the participants to complete.
- Allowing your technical team to mentor one of the WEE teams.
- Communicating with the team online and/or face to face.
- Sharing potential employment opportunities in your organization.
- Share your knowledge and expertise's with the WEE team and the participants

Employer Benefits

- Enhance your company profile by increasing your Corporate Social Responsibility.
- Contributing to a more diverse employment market.
- Create / co-design the projects with WEE participants and the project team.
- Reinforce your own employee learning and training through mentoring.
- Opportunities to find your next team member.
- Creating opportunities and access to career pathways for young people from underserved communities.

Target group for participants:

- 18 years +.
- Located in Dublin.
- Interested in an IT career.
- Have technical skills or knowledge.
- Highly motivated.
- Willing to participate and commit to their team for a five-month period.
- Ready to take the next step.
